

Our Partnership with Calhoun is Making a Difference!

Recently, a gentleman who was visiting our GED class shared that his employer had told him that he needed to obtain his GED or he would no longer be able to continue to work for him. As he gleaned the information he needed to take the tests, he passed all 3. He is now back at his place of employment and his employer is satisfied. The partnership The CARE Center has with Calhoun was a perfect picture of hope and opportunity. Donors of The CARE Center paid for those tests and their gifts are making a difference. Thank you for being a Partner in Hope!
