

If the CARE Center did not exist today, there would be many kids who go home on the weekends with no food at home to eat. I know several children under 12 years old that are directly impacted by The CARE center, in a crucial way. This is only one of the ways The CARE is impacting lives close to me. The CARE Center doesn't just give handouts, but actually works towards giving people a fresh start such as training them for GED's and assisting them in finding employment. There would definitely be a gaping hole in our community and the surrounding areas without the presence of The CARE Center."

~Pastor Chris Bartlett of Redemption Church in Owens Cross Roads
