

Jobs For Life Update

Summer was an exciting time for 4 students who graduated from Jobs For Life. The Jobs for Life class consists of 16 sessions and teaches timeless biblical principles concerning work and the ways those principles are applied in the marketplace. The class takes the students on a journey – a journey to discover who they are, their unique value, and the principles they need to overcome roadblocks in their lives.

But what happens after graduation. Let's look at one student, Jennifer Beason, who graduated through The CARE Center's program. Since graduation, Jennifer has also graduated from Calhoun, getting her GED. She is working toward her goal of becoming a nurse. She is currently taking classes at Drake Technical School. But, most importantly, she possesses self-esteem about herself and has a plan for her life to better herself. She believes in giving back, which is what she will be doing as a nurse and graduate of Jobs For Life.

It is the hope of The CARE Center that our course provides the foundation to equip graduates with Biblical principles that will lead to more than just a job. Congratulations Jennifer! We are proud of your continued accomplishments and cannot wait to see where God takes you next!
