

The CARE Center

A moment of hope we try to conceive
From the blessings, from a place too hard to believe
An incredible story of people who pull together
To help one another, no matter, whatever.
Daughters, sons, husbands and wives
The CARE Center is there to make a difference in their lives.
The people at The CARE Center, so quiet and sweet
Working long hours, while other people sleep.
A whole life's work to build up a home
The CARE center is there when things go wrong
Offering help and understanding, never before seen.
Helping some of the less fortunate, live out their dreams.
Mothers, Daughters, Fathers, and Sons.
But the work of The CARE Center is really never done.
When everything is gone and everything is lost
It a catastrophe in life and we all pay the cost
Offering a helping hand to an unknown brother
Putting aside their differences to help one another
An unbelievable place we will never forget
Helping anyone without a moments regret
So much to do. So where do they begin
As the reality of suffering starts to set in?
A new way of life, a new day is born
The CARE Center is there to help weather the storm.
A moment of prayer because we can't count the cost
Asking God to forgive us for the time that we've lost.
Inspiration from devastation that we haven't seen yet
The help of The CARE Center, we shall never forget.
