

*I have been on that side (of being desperate for hope). Doing without things we can't imagine. The CARE Center is so precious to me and my family and I always love to tell why <3 You guys, allowing us to have our AA meetings there, gives my daughter her parents back! For over two years now I have hope because of AA and The CARE Center facility which holds those meetings!! When we first moved in our home we had to pay over 1500 dollars to get electric and water, leaving no money for food, but because of your pantry we lived on the best peanut butter sandwiches in the world and yes I still brag about those sandwiches!! A couple months back, my daughter and I interrupted a board meeting there and caught your prayer! To this day that prayer stays with she and I both! At school she gets the bag of blessings which is so amazing!!! God Bless you all at The CARE Center! I am so proud to be born and bred New Hopian :)*
